

JACOB LING CHUNG JIE

Java Developer Intern

+60 1110501336 @ jacobjoan0505@gmail.com No 4B, Lrg Pahlawan 1, 96000 SIBU, SARAWAK

SUMMARY

Computer Science undergraduate with hands-on experience in software development through an internship at Microlink Systems Sdn. Bhd. Experienced in developing and maintaining Java-based banking applications, batch programs, SQL, debugging, and database management. Passionate about building reliable and efficient software solutions, with strong analytical, problem-solving, and teamwork skills. Eager to contribute to innovative software engineering projects while continuously learning new technologies.

EXPERIENCE

Java Developer Intern

Microlink Systems Sdn Bhd

03/2026 - Present

- Maintained and enhanced Java-based banking applications within the Core Banking Platform (CBP).
- Developed and modified batch programs for automated data processing and report generation.
- Wrote and optimized Oracle SQL queries for data retrieval, validation, and troubleshooting.
- Reviewed HLD and LLD documentation to translate business requirements into technical implementations.
- Diagnosed and resolved software defects through debugging, log analysis, and testing.
- Gained practical experience in banking systems, software development lifecycle (SDLC), version control, and team collaboration in a production environment.

EDUCATION

Bachelor of Computer Science with honours (Network Engineering)

University Malaysia Sabah

2022 - 2026

CGPA

3.61 / 4.00

PROJECTS

Mandarin Language Learning Web-Based System

2025 - 2026

- Led the design and development of an AI-assisted Mandarin learning platform using Laravel, PHP, and MySQL, including full-stack module architecture for gamified lessons, quizzes, and user progress tracking.
- Integrated advanced technologies such as OCR and speech recognition to enhance language acquisition and pronunciation accuracy in the platform.
- Managed relational databases with optimized CRUD operations, improving data processing and system scalability.
- Implemented responsive, user-friendly interfaces utilizing modern web development best practices with HTML, CSS, JavaScript, and Tailwind CSS.
- Conducted comprehensive system testing, debugging, and performance optimization to ensure high-quality and maintainable software.
- Collaborated throughout the SDLC, performing requirements analysis, system design, implementation, testing, and documentation.
- Directed backend development using PHP and Laravel, and integrated MySQL databases with comprehensive CRUD functionalities.

HUAWEI ICT COMPETITION (NATIONAL LEVEL) 2023-2024

KEY ACHIEVEMENTS

Improved Application Efficiency

Increased application efficiency by 30% through optimized code and streamlined batch processing.

Batch Programs Development

Developed 5+ batch programs reducing processing time by 10% for bank operations.

Business Requirements Translation

Translated 100% of business requirements successfully within deadlines using HLD and LLD documentation.

Website Performance Enhancement

Enhanced website performance, achieving 50% faster load times in Mandarin learning platform.

SKILLS

Technical Skills

Web Development

HTML

CSS

JavaScript

Tailwind CSS

Backend Development

PHP

Laravel framework (basic)

Database

MySQL (CRUD operations)

Programming Languages

PHP

Java

Python

C++ (basic)
